

Lights (indoor performances and outdoor night performances only)

- PAR 64, long black, lamp: CP 62 1000W - 2 pieces
- Worklights 150W – 2 pieces (we will provide our own)
- Light console (for PAR lights)
- Cables & stands

NOTE: Lighting is for performance area, puppet stage, back wall of puppet stage and performers (no specialized/focus lighting necessary). Minimally, we can bring our own work lights; in this case, all we need are two 230V / 16A sockets electric cables, and stands.

Sound

No technical requirements (all sound is performed acoustically)

Other

- Performance space: theater, garden, park, quiet town square, tent, cultural center, café, etc.
- Minimal performance space: 4m x 4m
- If performance space is a raised stage, we recommend 50cm maximum height (or use elevated seating)
- Seating for audience (chairs, benches, cushions for front row)
- We recommend maximum audience of 80 people
